

## About Us,

**Paraye** is a leading supplier of technological products and provider of custom-made solutions to various industries in Iran, including transportation, IT and Telecommunication, Oil and Gas, meteorology and aviation.

Established for almost two decades, we have gathered teams of highly educated, motivated and aspiring engineers to perform R&D, design, consultation and procurement tasks for our current and upcoming projects.

## Job Description,

We are looking for fresh graduated electrical engineers (B.Sc. and M.Sc.) to perform below tasks:

- Study technical documents (tender documents, product's specification sheets and manuals and etc.);
- Prepare list of technical requirements of the products;
- Prepare list of potential suppliers/manufacturers for the products/equipment.

## Job Requirements,

- Technical background and knowledge;
- Fluent in English (especially writing and speaking skills);
- Having appropriate team work abilities.

Interested job applicants are invited to submit their resume to [job@paraye.com](mailto:job@paraye.com)
